

We need your views on your relative, friend or client's recent visit to hospital

NHS Surrey and Surrey & Borders Partnership Foundation Trust are working to improve the experience of people with learning disabilities when they visit hospital.

Designated nurses with expertise in learning disabilities have been assigned to local hospitals to advise and assist staff to make sure that the person you care for had a safe, comfortable and successful visit.

Your views will help us identify what works and what doesn't. The results will be confidential and will be used by NHS Surrey to make sure that services improve.

We will not share any information with the hospital. Any opinions you express in the questionnaire will not influence the treatment you or your relative, client or friend receives in the future.

Thank you in advance for taking time to complete this questionnaire

About your relative, client or friend

1. Your relative, friend or clients name : _____

2. Their date of birth : _____

3. Please describe their ethnicity :

White:

- British
